Sponsorship for the ITS World Congress Vienna 2012

By hosting the 19th World Congress on ITS, Vienna will be the focus of an international discussion on the subject of mobility from 22 to 26 October 2012. The theme of the congress is modern systems for the improvement of traffic flows in a national, as well as transnational context. There are a number of important questions. Which IT solutions will make traffic safer and more efficient? How are the traffic systems to be linked? What are the responsibilities of policy makers? What are the future challenges?

Official partners of the ITS World Congress in Vienna 2012 have the opportunity to present their company to approximately 7,000 international experts and participants who are spearheading innovation in Intelligent Transport Systems. Our sponsorship packages offer a mix of online and offline activities, as described in the enclosed packages. Companies will be able to contact their target group before the congress, at the congress as well as at social events such as the Gala Dinner. The exhibition linked to the congress will attract visitors from all over the world.

It is possible to choose from four sponsorship packages: the Diamond Package (EUR 100,000), the Gold Package (EUR 75,000), the Silver Package (EUR 50,000) and the Bronze Package (EUR 25,000). All prices are exclusive VAT. Additionally interested companies have the opportunity to become a Friend of ITS World Congress Vienna 2012. This package costs EUR 5,000.

The BMVIT (Austrian Federal Ministry of Transport, Innovation and Technology) will host the conference. AustriaTech is responsible for the congress. In particular the committee in AustriaTech works out the main topics for the congress in 2012 and organises the technical tours and demonstrations. Chair of ITS World Congress 2012 is Reinhard Pfliegl.

The national committee would be pleased to answer any question you may have.
